

Ohio Career-Technical Education (CTE)

Arts Career Fields Virtual Event

SkillsUSA Ohio – 2021

www.ohioskillsusa.org

Visual Design and Imaging / Media Arts / Performing Arts / Interactive Media Art Show Competition

Eligibility

The contest is open to students in the fields of Visual Design and Imaging, Media Arts, Performing Arts, and Interactive Media. All competitors must be enrolled in an Ohio secondary CTE arts program and be members of SkillsUSA. Only dues-paid members of SkillsUSA may enter. The final deadline to register for the competition is March 1st, 2021. Because we are hosting the event virtually this year, we have no functional limitations on submissions! Any and all can submit a piece for the competition if they wish, but please restrict all students to one submission apiece.

The deadline for submissions is April 14th, 2021.

Equipment and Materials

The limitations of the virtual environment do restrict what can be submitted and evaluated. But this can be used to our advantage! Part of making good art is productively responding to limitations. If you create piece analog, be sure it is scanned and uploaded appropriately.

All submissions must be made to the [2021 Art Show Google Form](#) and must be JPEG, PNG, or GIF.

Contest Guidelines

1000 points total

250 points: Provide a short written introduction / explanation / contextualization for your submission. A maximum of 200 words.

750 points: The artwork itself, evaluated for originality, creativity, technical difficulty, and audience appeal.

Potential CTE A&C Standards Alignments

Strand One: 1.1, 1.2, 1.3, 1.5
